Short-term, next, again, pressure, instantané, blitz, punk, névralgie, hyperventilation, conform.  
Maintenant, burn out, guerre éclair, media, deadline, stressful, pause... Sturm und Drang.  
Snapshot, fast forward, social, obsession, neuro-transmission, flash, rest, convulsion, blink  
...too late.

This album includes a collection of 14 songs, plus the artworks  
which in some ways capture the 'energy' of the music.  
Two bonus tracks were added; made after the initial project and yet, perfectly encapsulate its global idea.  
Their addition actualizes the work and better reflects the current world.
